OSHA 30		
Hazwoper 40		
Green Belt Lean Six Sigma		
Forklift		
Yard Jockey		
Safe Load Training		
MSSC Certified Logistics Associate (CLA)		
APICS Certification in Logistics Transportation and Distribution (CLTD)		

The strong industry partnerships within the TLD sector have provided the foundation by which a vibrant industry advisory group was established with industry representation from Port of Philadelphia, Five Below, Holt Logistics, Allstates World Cargo, Holman Enterprises Parts Distribution, NJ Dept. of Transportation and the executive board of APICS. Though the work of this advisory board and the WDI the Council of Supply Chain Management’s Supply Chain Professional Fundamentals (SC Pro™) eight (8) module certification program has been implemented. To date 146 individuals have gone through the program at RCBC. Of the 146 individuals who’ve gone through the program 66 were incumbent workers and 80 were dislocated workers. 58 of the 80 dislocated workers have been placed in employment, making the overall placement rate 72.5%.

Based on this work and the participation as an educational and training partner on the first TLD Talent Development Center, the WDI applied for and was granted the lead for the second round of TLD Talent Development Center \$1.2 million funding. Under the WDI’s TLD Talent Development Center 289 dislocated workers, 301 incumbent workers and 5 disadvantaged workers have completed training. Of the 55 dislocated workers that successfully completed training to date, 31 have been hired for a current overall placement rate of 56%. For incumbent worker training, a total of 57 employers participated in training that included SC Pro™, OSHA 30, OSHA and Green Belt Lean Six Sigma.
