

MAKE A DIFFERENCE IN YOUR COMMUNITY...

Become a RUTGERS ENVIRONMENTAL STEWARD

A Rutgers Environmental Steward is a volunteer that is trained in the important environmental issues affecting New Jersey and works to help solve local environmental problems.

Stewards attend weekly classes and are taught by leading researchers from Rutgers, government, and the non-profit sector. Fieldtrips to environmentally significant sites are included. Stewards complete a 60 hour internship of their choosing to become certified. Topics include climate change, soil health, alternative energy, water quality, habitat conservation, pollinator protection, environmental policy and more!

Anyone can become an Environmental Steward! You do not need an environmental degree. Weekly classes start Wednesday, September 5, 2018 and run till early February from 6-9pm at the Burlington County Institute of Technology (BCIT)- 695 Woodlane Road, Westampton, NJ. The program fee is \$250.00. For more information contact Pat Rector at rector@njaes.rutgers.edu or 973-285-8303. **To register or learn more visit envirostewards.rutgers.edu.**

RUTGERS

New Jersey Agricultural
Experiment Station

Cooperating Agencies: Rutgers, The State University of New Jersey, U.S. Department of Agriculture, and County Boards of Chosen Freeholders. Rutgers Cooperative Extension, a unit of the Rutgers New Jersey Agricultural Experiment Station, is an equal opportunity program provider and employer.
